

## M'PERSON AND ORMISTON ARREST ORDERS ISSUED

## Immunity Promised "Radio Man" for Complete Story as Five Perjury Seizures Impend

Mrs. Aimee Semple McPherson, pastor of Angelus Temple, and Kenneth G. Ormiston, the missing "radio man" in the sensational McPherson kidnapping story, were linked together as codefendants yesterday when Dist. Atty. Keyes issued orders for felony complaints against them and three others for asserted preparation of perjured testimony.

Mrs. Lorraine Wiseman Sielaff, and John Doe Martin were the first to be named in the complaints now being prepared by Forrest Murray, head of the complaint department at the District Attorney's office.

The five named in Mr. Keyes's orders are to be charged under sections covering perjury, subornation of perjury and preparation of false documents.

The actual serving of the complaints probably will not take place until some time today. Although attaches of the District Attorney's office said the delay is due to the necessity

of preparing the legal papers, unofficially it was learned that an opportunity is to be provided for Ormiston, believed to be the key witness in the case, to come forward and make a confession to Mr. Keyes.

Overtures in that direction were made yesterday by Attorney S. E. Hahn, who represented Mrs. Bufal and Miss Bernice Morris, witnesses before Mr. Keyes. Mr. Hahn held a lengthy conference with Mr. Keyes, Chief Deputy Davis and Deputies Dennison and Lackey just after the order for the complaints were issued by the County Attorney, and announced that negotiations were given Ormiston immunity in return for his testimony for the State were to produce. He definitely promised to pro-

The court in its conclusions pointed out that the decision was not a reflection upon the directors and officers of the association in determining whether or not it was legal.

This expedition was inspired and developed by the highest ideals of citizenship and devotion to the public good. It was a movement to free itself and lure others to it," the decision said. "But patriotic as

the cause may be, it cannot excuse Mrs. McPherson and her friends of "brown activities to build up false alibis, for 'so-called' and 'alleged' members of the group of a gigantic hoax surrounding the entire affair."

Mr. Keyes's statement disclosed the fact that Mrs. McPherson and her mother have engaged Attorney W. L. Gilbert to defend them and that they are awaiting word from him as soon as the warrants are served were made yesterday.

PASTOR COLLAPSES

The sudden developments yesterday were precipitated by the dramatic collapse of Mrs. Katherine K. Keyes before she was to appear at Mr. Keyes's office to be given the opportunity of presenting her side of the case requested by her some time ago.

## McPHERSON SCANDAL MUST BE CLEARED UP, DECLARES KEYES

Following is Dist. Atty. Keyes' statement on the McPherson case:

I have just instructed Mr. Forrest Murray, head of my complaint department, to issue felony complaints against Mrs. Almee Semple McPherson, Mrs. Minnie Kennedy, Kenneth G. Ormiston, Mrs. Lor-

in mind that Mrs. McPherson's position as the religious leader of a considerable number of people and the custodian of their Christian faith entitles her to protection from any such attack or ill-considered action.

From the time that the story that Mrs. McPherson had been drowned was broadcast throughout the country, there has been the tainted atmosphere of a gigantic hoax surrounding it. As time has progressed, this increased with the expose of the unbelievable story of the kidnapping and the brazen activities of Mrs. McPherson and her friends to build up false alibis for her.

It is my duty and I can do no less than exert the full power of my office to bring this woman before the bar of justice in order

## EYES ORDERS ARREST OF PASTOR AND ORMISTON

Mrs. Kennedy and Mrs. Sielaff to be Named Also in Perjury Complaints on 'Kidnaping'

(Continued from First Page)

New phase of the situation when Mrs. McPherson's private stenographer and typist in the pastor's home, she said she had conversation with both the evangelist and Mother Kennedy before she dictated the affidavit. It was this affidavit that was given out at Mrs. Frame's home by her husband, but he said at the time he was rather of the opinion that neither Mrs. McPherson nor Mrs. Kennedy knew what was in it and that it was not prepared in their home.

It was then that Mr. Keyes issued a statement saying the evangelist's reported sickness would make no difference in the action planned by him.

At the same time Detectives Brink and Horn were dispatched to the Temple to bring to the District Attorney's office Miss Emma Schaefer, Mrs. McPherson's secretary, for questioning.

Her visit with Mr. Keyes was brief. She is reported to have admitted to the officials that she was given the custody of the safety deposit key for the box rented by Mrs. Wiseman, in which copies of the asserted perjured affidavits were found following the woman's confession that the whole Carmel incident related by her was a tissue of lies encouraged and financed by Mrs. McPherson and Mrs. Kennedy.

This key, Miss Schaefer is said to have told Mr. Keyes, was turned over to her by Mrs. Wiseman in the presence of Mrs. McPherson, a will giving the contents of the box to Mrs. McPherson was among the things found in the deposit box. The rest of the contents was in sealed envelopes which later disclosed important documents bearing on the asserted conspiracy to manufacture the Carmel evidence.

Two other important witnesses were interviewed by Mr. Keyes and his assistants during the day, while at Angeles Temple one dramatic scene followed another.

In addition to obtaining new testimony and further strengthening the evidence said to be available against the five future defendants, the authorities issued orders for the arrest as a material witness of Harry L. McLoach, formerly private detective believed by the District Attorney to be a key witness in an asserted conspiracy to manufacture evidence necessary to bolster up the story related by Mrs. McPherson upon her return to Douglas, Ariz., June 23 last.

McLoach's asserted connection with the case was uncovered by The Times when it was established that more than a month ago he approached Detective Nick Harris and offered to produce the kidnapers, shack, baiting bait and the other things needed by Mrs. McPherson to make the world believe she was kidnaped in broad daylight of the beach at Ocean Park.

McLoach was located by The Times last night in San Francisco under an assumed name. All the information about him was turned over to the authorities for action.

Miss Bernice Morris, formerly secretary to Russell McKimley, blind attorney of Long Beach, and Mrs. Elizabeth Frame, in whose home Mrs. McPherson met Mrs. Wiseman and who was used as a go-between for the temple and Mrs. Wiseman during her Carmel incident activities, were the other witnesses interviewed during the day.

From Miss Morris the officials are said to have obtained important testimony further building up the State's theory that a deliberate attempt to produce "evidence" was being encouraged by Mrs. McPherson and her mother, Mrs. Kennedy.

Miss Morris gave a lengthy statement to Mr. Keyes and Mr. Davis and went with them over the details of her transactions with the two women at Angeles Temple. She also produced a photograph of Joe Watts, the man whose likeness she says she showed to Mrs. McPherson as being the photograph of "Steve," the kidnaper of the evangelist.

Mrs. Frame, a quiet little woman, left Mr. Keyes's office apparently undisturbed by the questioning. She willingly posed for photographs and later talked with reporters.

**STORY REPEATED**

Mrs. Frame said she related to the District Attorney substantially the information published in The Times Tuesday and later contained in an affidavit disclosing how she acted as a medium through which Mrs. Wiseman-Sielaff and Mrs. McPherson and Mrs. Kennedy exchanged information through telephone and how Mrs. Kennedy sent money to Mrs. Wiseman.

Mrs. Frame admitted after the conference with the official that she had

prepared the affidavit at the McPherson home, that it was given to Mrs. McPherson's private stenographer and typed in the pastor's home. She said she had conversation with both the evangelist and Mother Kennedy before she dictated the affidavit. It was this affidavit that was given out at Mrs. Frame's home by her husband, but he said at the time he was rather of the opinion that neither Mrs. McPherson nor Mrs. Kennedy knew what was in it and that it was not prepared in their home.

Mrs. Frame said she heard Mrs. Wiseman-Sielaff once tell Mrs. McPherson that the writing on the grocery slip found in the Carmel "love nest" was her own. Mrs. Wiseman-Sielaff's testimony says that she practiced imitating the writing as she story put out on behalf of Mrs. McPherson, that it was she who was the woman mistaken in the Carmel cottage for Mrs. McPherson.

**INVENTIONS CITED**

Miss Morris's recital before the District Attorney yesterday, it was learned, contained substantially the same as she made public through her own story exclusively in The Times Wednesday morning. It was Miss Morris who said that she invented several fictitious situations in support of Mrs. McPherson's kidnaping story and laid them before Mrs. McPherson, and that Mrs. McPherson at once "realized" the situations, which, Miss Morris said, were purely her own inventions to test Mrs. McPherson's attitude.

Miss Schaefer went voluntarily to the District Attorney's office when in investigation train and her story after her. Mrs. Kennedy, who was described to the District Attorney's office as "a woman who goes left the home shortly after in company with Leonard Hamner, an attorney in the case on the Temple side, for a "shopping trip downtown," it was said by one of her aides. It was later determined that she had visited the office of Mr. Gilbert, whom she has retained as one of her attorneys.

Chief Deputy Davis called the McPherson home to invite the evangelist and her mother down for a conference, but was reported to have received from Mrs. McPherson the statement:

"No, I'm too tired; I'm sick."

When she was asked if her mother would care to come she is reported to have told Davis:

"No, she's tired, too."

She then terminated the conversation, it was declared.

SAN FRANCISCO, Sept. 16. (AP)—Kenneth G. Ormiston's return to California had been expected by his parents, who are residents of this city, it was disclosed here tonight.

Mrs. McDonald Declares Greed for Gold Chief Vice of Mrs. Sielaff

OAKLAND, Sept. 16. (AP)—Mrs. Lorraine Wiseman-Sielaff had a passion for money, her mother, Mrs. Clara McDonald, said here today, but that she would tell a lie to obtain it "is inconceivable to me."

Mrs. McDonald returned today from Boise, Idaho, where she attended the funeral of her brother, Chief Justice Lee of the Idaho Supreme Court.

"In many ways she was a loving daughter, but she seems to have made money her God," Mrs. McDonald said. "I would do anything in the world to help her."

"Concerning the truth or falsity of the things that have been said about her in connection with the McPherson case I can say nothing, because I know nothing. All of her troubles have been caused by her desire for large sums of money and the fine things of life that money can buy. She never talked in dollars and cents. She talked in millions. There has been no other like her in either father's family or mine."

"She is such a strange woman in many ways, but in her home life as a girl she was wonderful. I do not believe that she is insane."

## Sielaff Woman Faces Warrant From San Jose

The Sheriff's office here yesterday received telegraphic information from the Sheriff's office at San Jose, Santa Clara county, that a warrant has been issued there against Mrs. Villa McDonald Wiseman-Sielaff charging issuing checks without sufficient funds.

It was believed unlikely action would be taken to serve her immediately, in view of the fact she is now out on bail here, but it is expected she will be served when she appears at the District Attorney's office, probably some time today.

## "KIDNAPER" FACES ACCUSER

Joe Watts Denies Part of Miss Morris's Story But Admits to Officials He Had Photo Taken

Joe Watts, who is declared to have impersonated one of Almee Semple McPherson's asserted kidnapers, was brought face to face with Miss Bernice Morris, his accuser, late yesterday afternoon and in part denied her story. The meeting was in Dist. Atty. Keyes's private office before Chief Deputy Davis and Dep. Dist. Atty. Dennison. After questioning Watts for more than two hours Mr. Davis announced that he had made some progress with the man and will continue the questioning this morning.

He declared that Watts again must face Miss Morris and advised the man to think his statements over during the night and seek the advice of his attorney.

**ADmits ONE PART**

Watts in his statement denied that he had telephoned to Mrs. McPherson and told her that he was one of her kidnapers, but admitted that his picture had been taken and afterward used to show to Mrs. McPherson as the photograph of one of the asserted kidnapers.

Miss Morris and the oil-field worker from Long Beach were brought together by the authorities yesterday as the result of her affidavit in which she declared that Watts's picture was shown to Mrs. McPherson and that she made a partial identification of it as one of the men who carried her into Mexico. In her statement, which went into great detail regarding what she charged was in her opinion an effort by Mrs. McPherson to obtain false testimony and evidence with which to prove her kidnaping story, Miss Morris also told of the telephone call which, she said, was made by Mrs. McPherson to her.

The appeal went on the air Wednesday night. At midnight there were fifty-seven telegrams in Mr. Keyes's office. Yesterday most of them came in, as night letters, although some were trickled through during the day. About 200 messages in all were turned over to Chief of Detectives Cohn for safekeeping. A number of special delivery letters were in the collection.

One of the wires received at Mr. Keyes's office was from the Bethesda Service League, Mrs. J. P. Yoder, president, and Mrs. H. P. Wachsman, secretary. The organization, the telegram said, is comprised of several hundred former invalids healed through the prayers of Mrs. McPherson. It protested against the reported possible arrest of Mrs. McPherson and painted the woman evangelist as a victim of "an unparalleled unprovoked plot by combined enemies to destroy her invaluable services to the city."

Most of the telegrams were from individuals.

Keyes Receives About 200 Messages in Support of Almee McPherson

Mrs. Almee Semple McPherson's dramatic appeal Wednesday night to her congregation and over the radio for telegrams and letters of "sympathy and co-operation" to Dist. Atty. Keyes and the newspapers began to bring results yesterday.

While the impassioned appeal failed to halt the anticipated action by Mr. Keyes, which yesterday took the form of an order for felony complaints against Mrs. McPherson and four others, it caused several messenger boys to keep moving between telephone offices and the Hall of Justice. The appeal went on the air Wednesday night. At midnight there were fifty-seven telegrams in Mr. Keyes's office. Yesterday most of them came in, as night letters, although some were trickled through during the day. About 200 messages in all were turned over to Chief of Detectives Cohn for safekeeping. ## EVANGELIST MISSING AT NIGHT RITES

Mrs. Kennedy Officially at Angeles Temple While Crowd Thins Out

Almee Semple McPherson did not appear at the Angeles Temple service last night. A throng that filled the temple at the opening of the service gradually melted away until only about half the original number remained when the baptismal ceremonies began.

At the conclusion of the opening musical service, at which time the evangelist was wont to appear, her mother, Mrs. Minnie Kennedy, took the platform instead. There was some show of enthusiasm as she entered and began to speak.

Mrs. McPherson would not go with them that evening, Mrs. Kennedy announced. She referred to "Buster's" wonderful endurance and perseverance," stating that, to her knowledge, in her daughter's "seventeen years of work up and down the country it was the first time she had to cancel an appointment."

Constant work and the events of the last few days, Mrs. Kennedy said, referring specifically to "the shock of what was told us from downtown offices" Wednesday evening, had been too much for the evangelist.

Mrs. McPherson, she said, "had wanted to get out of bed and come down and conduct the service, but her doctor wouldn't let her."

The evangelist's mother announced that services will be conducted as usual, outlining meetings for today and tomorrow.

Mrs. Kennedy was followed by members of the congregation, who spoke briefly from scriptural texts. The audience gradually thinned out after it became apparent the evangelist would not appear, until the temple was only about half filled when the baptismal services began.

There was no noticeable crowd outside the temple, and the loud speaker used to convey the proceedings to those outside the building was not in operation.

On several occasions there were outbursts of applause when the name of the evangelist was mentioned.

## JUDGE MAY SPEED HOAX UNRAVELING

Hardy, Evangelist's Friend, Back from Trip, Expected to Aid in Clearing Case

Impetus may be added to the unraveling of the McPherson case charges and counter-charges by the return from vacation of Superior Judge Hardy, according to some of the investigators.

Judge Hardy is known as one of the closest confidants to Mrs. Almee Semple McPherson and Angeles Temple leaders and in a public statement last summer Mrs. Hardy, in bespeaking public confidence in Mrs. McPherson, said her husband was devoting "all his spare time to the unraveling of the case."

The judge had no comment to make on the situation last night, however, having just returned Sunday from a vacation in Canada where, he said, he was completely out of touch with the case.

Since his return, the judge has no doubt been kept busy in his court duties that he has had no time to go into the recent startling developments.

## GIANT BOLT TO BE LOOSED

Scientists at Stanford Prepare Lightning Bolt, 2,100,000 Volts as Power Transmission

STANFORD UNIVERSITY, Sept. 16. (AP)—Electrical engineers at Stanford University are preparing a bolt of man-made lightning of tremendous power that one can scarcely comprehend. It will be tomorrow in the form of a ribbon of sputtering flame some 100 miles long in the Harris J. Ryan High-Voltage Laboratory on the campus.

At mighty transformers make the enormous voltage possible, and it is proposed to put 2,100,000 volts into this single charge. The experiment is expected to throw new light on the complex principles of power transmission to distant points, and to develop some new unknown principles which will make such transmission easier and much more effective.

The laboratory is unusual in itself, having been built primarily to permit of these extraordinary tests. The main building is 178 feet long, sixty feet wide and sixty-five feet high, and has an interior height of fifty feet in the clear to the roof trusses with no supporting columns. It can be made absolutely light proof for such experiments as the release of the greatest of man-made bolts to test the power of the United States. The university has appropriated a strip 100 yards wide and a mile and a quarter long for an experimental water power of the United States. The experimental station is intended to solve the growing problem of power transmission in the West, where 60 per cent of the available water power of the United States is located, and where the power-development units are often 100 or 200 miles from the distribution centers. Dr. Ryan, director of the laboratory, suggests that the experiments may show the way for the transmission of power over the Columbia and Colorado rivers being utilized by the entire Coast.

## CLEARING OF McPHERSON CASE NEARS

Officials Expect End of Mystery Following Hahn Announcement

With the announcement yesterday that Attorney A. S. Hahn was negotiating with the District Attorney's office to have the most important witnesses in the McPherson case, Kenneth G. Ormiston, return to all he knows, officials declared that the entire mystery surrounding the case may be cleared shortly.

Hahn's announcement that he could produce Ormiston if the latter is granted immunity from the felony complaint, is being taken against him, came with unexpected suddenness yesterday afternoon and created a furor around the Hall of Justice.

If Hahn has formed a contact with the former Angeles Temple radio man, whose name has been linked to the case since shortly after the evangelist disappeared, and produces him for questioning, the attorney will have handled the three most important developments in the expose of attempts to produce fraudulent evidence in the case, deputy district attorneys pointed out yesterday.

Mr. Hahn is representing Mrs. Lorraine Wiseman-Sielaff, confessed perjuror of the Carmel incident, who was instrumental in obtaining the admission from her that the entire "Miss X" episode was "faked."

Mr. Hahn also played an important role in obtaining the admission from Miss Bernice Morris, secretary to Russell McKimley, blind Long Beach attorney, that plans to produce a pseudo kidnaper and other evidence were under way. McKimley was killed in an auto accident several weeks ago.

The attorney also aided Dist. Atty. Keyes in questioning both Miss Morris and Mrs. Sielaff.

## ORMISTON'S KIN RETICENT

In denying that he has been in communication with his brother, William Ormiston declared it had been several weeks since he has heard from the man now sought by authorities with a warrant charging a felony. He also said it had been some time since he had seen his brother. He said that he does not know that his brother's arrest had been ordered by the District Attorney.

Meeting all questions with the statement, "I have nothing to say," Thomas Ormiston refused to make any statement in connection with the developments in the case that has focused considerably on his brother, who is charged with the slaying of the Carmel-by-the-Sea episode.

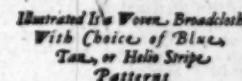

When questioned as to whether he has been in communication with the former radio-operator recently, Mr. Ormiston declared:

"That is immaterial. Besides I have nothing to say."

The second brother likewise expressed ignorance of the fact that the arrest of Kenneth Ormiston had been ordered by the district attorney.

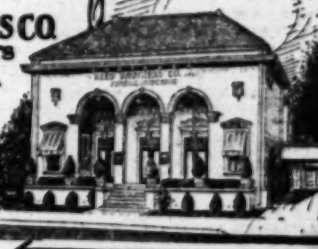

According to neighbors of William Ormiston at a previous residence on Third avenue, Kenneth Ormiston was last seen by them prior to the disappearance of Mrs. McPherson. They said he often was accompanied by a woman they did not know.

## CRISIS IN DAUGHERTY TRIAL NEAR WITH EXHIBITS FILED

**Government Will Try Today to Link  
Mass of Evidence as Proof of  
Conspiracy Charges**

NEW YORK, Sept. 16. (AP)—The trial of Harry M. Daugherty and Thomas W. Miller moved toward a crisis today. For seven days the government has fed into the record oral and documentary evidence admitted subject to connection with the charges. Today, the seventh day of the trial, additions were made to the mass of exhibits that brought the total up to ninety, with some of the exhibits containing hundreds of type-written pages, checks, railroad vouchers, hotel registers, letters and hotel register sheets are included in the exhibits.

Twenty witnesses, a number of counsel for Daugherty, this statement was taken from the record. "Well, who took you to the Department of Justice?" "Jesse Smith."

**OFFICE IN BUILDING**  
The government, in outlining its case, asserted it will show that Smith never was an actual employee of the Department of Justice, but that he maintained an office in the bureau and that employees there took orders from him.

**CONSPIRACY CHARGE**  
Daugherty and Miller, the government asserted, participated in a conspiracy to pay fraudulently to the Society Suisse Pour l'Enseignement des Jeunes \$7,000,000 of the compounded shares of the American Metal Company, which were issued during the war under the Trading With the Enemy Act. Richard Merton, German metal magnate, previously testified he paid King a total of \$441,000 as compensation for aiding him in obtaining refund of the impounded shares.

John D. Durkin, secretary to King for several years before King's death, was recalled today for cross examination.

Two checks for \$250,000 each made out by King to Daugherty were produced by Durkin as contributions to a deficit in the Republican campaign fund in Ohio. He testified the checks bore the notation "deduct Ohio Republican party."

These cancelled checks disappeared from King's office some time between March and June of this year, he said.

When counsel for Miller had completed cross-examination, Durkin was questioned by Asst. U. S. Atty. Simpson. He identified three checks totaling \$29,143.75. One of the checks was for \$25,000 and was signed by King and payable to Smith. Another check, signed by King and payable to "cash," was also in evidence. Durkin could not remember having seen it before. The checks were dated October 18, 1931, thirteen days after the day Merton said he gave King \$491,000 in Liberty Loan bonds.

**CITED AS INTEREST**  
The government asserted these three checks represented coupon or interest value on Liberty Loan bonds amounting to \$145,000. Durkin testified he had deposited Liberty Loan bond coupons on King's account.

The third check was for \$25,000 and was dated August 1, 1931. It bore the signature of King and was payable to "cash." The date of the check approximated the date on which Merton said he gave King \$491,000 as a "retainer." After a long dispute the check was barred as an exhibit.

Miss Vera Veal, for seventeen years an employee in the Midland National Bank at Washington Courthouse, O., of which Daugherty's brother, Max Daugherty, is president, could not identify the signature of Jesse W. Smith when called by the government. A telegram was sent Miller in Pittsburgh the day before the claims of the Society Suisse were paid. Fred H. Wilson, secretary to Miller at the time he was alien property school superintendent, testified. The telegram said the claims had not been paid. The next day, Wilson said, a telegram was sent Miller to Swickley, Pa., advising the claims had been paid. Wilson identified copies of both telegrams and they were admitted as exhibits.

**BUTLER TESTIFIES**  
Under cross-examination by William Rand, counsel for Miller, Wilson said telegrams about claims under investigation were frequently sent Miller, or else he would be advised by telephone of their status. Under redirect examination Wilson could not recall any specific claim other than the Society Suisse claims and another mentioned in the same telegram of which he had telegraphed or telephoned Miller.

The first witness of the day, who occupied the stand for most of the morning session, was Walter D. Miller, a former butler for Daugherty and Jesse W. Smith at the time Daugherty was Attorney-General. He told of visits of prominent persons to a house in H street occupied by his two masters and also of what he had seen in the Department of Justice building after he was given a position in the files department there.

He testified that John T. King was a frequent visitor at the H street house and was on terms of "great cordiality" with Daugherty. Under cross-examination by defense counsel the witness agreed that King was on no more intimate terms in the Washington house than were records of other prominent men, among them Senators, Congressmen and Cabinet members. The former butler said the Attorney-General was "very popular" in Washington.

**SMITH PAID BILLS**  
Miller testified that all household bills at the H street house were paid by Smith, all checks being signed "Jesse W. Smith, exr."

## TAKES ACTION IN MEXICO MURDER

**(Continued from First Page)**

**STABBED TO DEATH  
AS BRIGANDS ESCAPE**  
MEXICO CITY, Sept. 16. (Exclusive)—Jacob Rosenthal, a retired New York merchant, visiting Mexico for the first time on a pleasure trip, was stabbed to death by the bandits who kidnapped him Sunday on the road between here and Cuernavaca. Less than a fortnight ago Rosenthal declared to friends in the American Club that Mexico was "wider than Broadway any day." Confirmation of the news of his death was given at the American Embassy. Members of the Embassy were visibly concerned over the affair and would not discuss its possible effect on international relations.

It was said at the Embassy that Mexico appeared to have made every effort to release Rosenthal and deliver him safe and sound to his son-in-law here. This is the first time the Mexican bandits have carried out their threats to kill their prisoners. Both Maj. Burr, former assistant military attaché here, and A. Bruce Bialski, former chief agent of the Department of Justice, managed to effect their escape when kidnapped under similar circumstances.

**LAST WORDS IN LETTER**  
"For God's sake, hurry!" appear to have been the last words Rosenthal wrote in a letter mailed yesterday morning and received at the office of Joseph Stiff, his son-in-law. Written partly in Spanish, the letter said a ransom of 20,000 pesos would obtain Rosenthal's release and gave instructions for delivery. In a portion written in English, Rosenthal said he was not well and suffered considerably on account of the exposure and bad food, though the hut from which he wrote was fairly comfortable.

The bandits directed that the money should be carried from Cuernavaca along the road leading to Cuautla, another mountain resort in the State of Morelos. But the people were to undertake the delivery, and they were to walk along the road till they were met by a man who would make themselves known, and would bring Rosenthal out of his hiding place when the money was given. This information was given by Roberto Cruz, Chief of Police here. He ordered Gen. Lopez with a picked detachment of men to leave for Cuernavaca. They arrived there yesterday noon. Two soldiers in civilian dress, carrying a bag filled with money, started out toward Cuautla, while the remainder trailed out of sight. The plan was carried out and as the two bandits stepped into the hands of the soldiers shot them dead.

**BANDITS MAKE ESCAPE**  
The other bandits fled into the mountains, forcing Rosenthal along with them, according to the report given to the United States Embassy, and the soldiers were to follow a man-to-man pursuit. It was then the bandits took time to kill Rosenthal, stabbing him in full sight of the men attempting to rescue him. The soldiers recovered his body, horribly slashed, while pursuit of the bandits continued.

Jose Masera, chief of the Mexico City detectives, and Gen. Lopez report that the fight with the bandits occurred at 10 p.m. yesterday and the report was given at 9 a.m. today. Charge d'Affaires H. F. Arthur Schoenfeld at once called it to the State Department at Washington.

From private sources it is learned Rosenthal's body was moved to Cuernavaca and that it probably will be brought here for shipment to the United States.

## REPORTS VERIFY YAGUIS' VICTORY

**Indians Said to Have Killed  
Half a Battalion**

**Mexican Troops Ambushed  
by Red-Men Forces**  
**Attack Planned on Tribe's  
Mountain Stronghold**

NOGALES (Ariz.) Sept. 16. (AP)—Dispatches received here today from Guaymas, Son., Mex., confirm reports of Wednesday that a battalion of Mexican infantry had suffered a defeat at the hands of Yaqui Indians south of Vicam.

The Yaqui, the dispatches said, ambushed the battalion and, killing the larger part, put the remainder to flight. The country in which the fight occurred is a small, steep-walled valley carpeted with heavy underbrush, is an ideal setting for Yaqui warfare.

**REPORTS MEAGER**  
With most of the telephone facilities in the hands of the military, the border today continued to depend upon persons returning from the restricted area for word of troop movements and encounters between the insurgent natives and Federal soldiers. Rumors of such movements, based largely on reports brought by soldiers returning to the garrison, were rife at Guaymas.

**SPLIT IN TRIBES**  
Gen. Anchaeta, commanding the Sixty-fourth Infantry stationed at Nogales, Son., just across the border, reported on his return from a three-day inspection trip into Southern Sonora, that there had been a split within the ranks of the warring Yaquis and that 400 Indians under the leadership of a deposed chieftain, had aligned themselves with Federal troops.

Unconfirmed reports declared that the Yaqui Indians, numbering from 8000 to 9000 fighting men, also had gone on the warpath, but little evidence was given these reports, as the Yaquis ordinarily are a peaceful folk and traditional enemies of the Yaqui.

**CO-ED VICE

**Episcopal Journal Stands

West Stirred by "Expose"**

CHICAGO, Sept. 16. (Exclusive)—Despite the general condemnation of articles on co-ed vice, written by a university co-ed, written by William O. Cross, former student at the University of Illinois and published in the Witness, a national Episcopal daily publication, it was announced today that the article would continue. Rev. W. B. Spofford, managing editor of the Witness, declared that the sensationalism of the article was being published with the tacit approval of Rev. Irving P. Johnson, editor-in-chief of the weekly.

The first contribution to the controversial aftermath, Mr. Spofford said, had been written by Rev. B. Booth, of Burlington, Vt., who says he believes there is much truth in the charges, and suggests a campaign to pledge students not to drink as a means of preventing immorality.

Meanwhile western papers are filled with indignant letters from co-eds, men students, deans of women and parents, denouncing the Cross articles as grossly libelous. They agree that there may be isolated cases of drinking and betting, but the entire student body should not be indicted for the acts of a very few. In most cases outsiders invited to student parties.

**Tampering in  
Civil Service  
Work Charged**  
PHILADELPHIA, Sept. 16. (AP)—Senator Smoot of Utah is the "practical dictator" of the Civil Service Bureau in Washington, Dr. Ellery C. Stowell of Washington told the assembly of Civil Service Commissioners in actual session here.

"Members of Congress are interfering with the service to such an extent that citizens should organize to protect the important government service from being further hampered," added Mr. Stowell, who is president of the Better Government League in the national capital.

"It is shocking to find the Federal government more secretive about appointments than are States and cities. I doubt if greater secrecy is practiced in bureaucratic Russia."

**GUN SQUAD FORMED  
TO PROTECT WOMEN**  
SALT LAKE CITY, Sept. 16. (Exclusive)—Chief of Police Burdette today organized a special squad of twelve policemen, armed with sawed-off shotguns and equipped with powerful motor cars, to begin a crusade against men who prey on girls and women. Recent brutal attacks on girls in automobiles led the Chief to make the new move.

ATLANTIC CITY, Sept. 16. (AP)—Feminists who raise a hue and cry over the fate of the American home and bemoan the fact that the United States has gone "jazz crazy" were taken to task today by Congressman Davey of Ohio.

Addressing the international convention of Life Underwriters, he cited the unprecedented volume of life insurance sold in America as reasons why there need be no fear as to the future of the home and why the "jazz" charge is unfounded.

Dr. Lee E. Frankel, second vice-president of the Metropolitan Life Insurance Company, outlined the work which has been done to eradicate so-called preventable diseases.

Father Cambouret found that over eighty headless butterflies, belonging to two different families, not only survived but their heads but lived appreciably longer than other members of their families which had not been deprived of their heads.

PARIS, Sept. 16. (AP)—Life without a head is not only possible, but as the Academy of Science was informed there are insects that live longer without their heads than with them.

In describing the investigations carried on for many years by Rev. Father Cambouret, a missionary in Madagascar, Prof. Bouvier said they were in continuation of those described by Edward Perrier, before the Academy, in 1911, in which certain reptiles survived the loss of their heads and became chrysalises and then headless butterflies. Father Cambouret found that over eighty headless butterflies, belonging to two different families, not only survived but their heads but lived appreciably longer than other members of their families which had not been deprived of their heads.

Kemmerer of the chair of economics, Princeton University, and president of the American Economic Association, which has been studying conditions in Poland so as to advise the country how to reorganize its finances, has ended its work. Dr. Kemmerer and the other members of the party will leave Warsaw tomorrow.

The commission visited various parts of the country, studying industries and natural resources and obtaining information. Written recommendations based on the investigations of Polish banking, taxation, customs, government enterprises and monopolies will be presented to the government.

## Insurance Held Proof Homes of America Secure

ATLANTIC CITY, Sept. 16. (AP)—Feminists who raise a hue and cry over the fate of the American home and bemoan the fact that the United States has gone "jazz crazy" were taken to task today by Congressman Davey of Ohio.

Addressing the international convention of Life Underwriters, he cited the unprecedented volume of life insurance sold in America as reasons why there need be no fear as to the future of the home and why the "jazz" charge is unfounded.

Dr. Lee E. Frankel, second vice-president of the Metropolitan Life Insurance Company, outlined the work which has been done to eradicate so-called preventable diseases.

## JONES DEFEATS CHICK EVANS IN HARD MATCH; VON ELM WINS

SHORT HILLS (N. J.) Sept. 16. (AP)—Bobby Jones carried on today through another bitterly fought duel to triumph over Chick Evans of Chicago in the drive toward his third successive national amateur golf championship.

For a time during the thirty-four-hole struggle between the veteran of many links campaigns and the 24-year-old master from Atlanta, Bobby's crown seemed uncertainly.

Seaside started the scoring in the second inning, when he gently but firmly planted one of Martin's offerings out in the bleachers for a home run, interrupting a sun bath being enjoyed by a half-dozen cash customers.

Seaside knotted the count in the third, when Red Baldwin walked and completed the circuit on Martin's fault.

## NOTRE DAME PLANS NEW BIG THREE WITH MIDDIES, CADETS

SOUTH BEND (Ind.) Sept. 16. (AP)—With schedule bickerings threatening the rupture of football's "big three"—Yale, Harvard and Princeton—Knute Rockne, canny craftsman of Notre Dame gridiron fortunes, has sought to form another mighty triumvirate, Army, Navy and Notre Dame.

The announcement at Baltimore of the negotiations of a two-year contract between the Navy and Notre Dame definitely anchored the Middles as the third corner stone of what may develop into the game's outstanding triangular rivalry. Army has met Notre Dame for fourteen years.

## BIG BILL IS CONQUERED BY YOUNG NET WIZARD

**Cochet Takes Stirring Court Epic in Five Sets; Little Bill is Defeated; Richards Wins**

FOREST HILLS (N. Y.) Sept. 16. (AP)—William T. Tilden, II, king of American tennis for six straight years, was toppled from his throne today by a stripling from France in as sensational a struggle as any national championship tournament has ever witnessed.

Henri Cochet, 24-year-old French star who was not considered formidable enough to play for his country in the Davis Cup singles, accomplished the downfall of the famous titleholder in five sets after a pulsating battle that was in doubt until its closing moments. The scores were: 6-3, 6-1, 6-3, 1-6, 6-4.

A crowd of more than 10,000 spectators in the big East Side Club's Stadium had hardly recovered from the shock of Tilden's defeat when another flashing French racket stepped to the fore to eliminate William M. Johnston, the veteran Little Californian who has been the champion's foremost rival and his partner in Davis Cup triumphs over seven straight seasons.

Jean Borotra, the colorful "Bouncing Basque" and holder of the Wimbledon championship, brought about the day's closing upset with a smashing rally that carried him to victory over the tiring Johnston in five sets, decided by scores of 3-6, 4-6, 6-3, 6-4, 6-4.

Altogether, it was as dark and gloomy a day at American tennis ever has known. For Rene Lacoste, third of the major French threats, forged his way to the semifinals by overcoming the United States Davis Cup captain, Richard Morris Williams, in straight sets, 6-0, 6-3, 6-8.

Vincent Richards, youngest of America's "Big Four" was the only one of the quartet to escape defeat in the French onslaught and now stands out as Uncle Sam's sole hope of keeping the national tennis title on home shores. The convincing manner in which Richards disposed of Jacques Brugnon, however, at 6-3, 6-1, 6-2, convinced observers that he is at the top of his game for the fight against the French invasion.

Richards vs. Borotra. Tomorrow, Richards faces Borotra, Johnston's conqueror, in one semifinal while Lacoste and Cochet battle to determine the other finalist.

Only once before, in 1903, when it was captured by the British crack, Hugh Doherty, has America's premier tennis crown passed to foreign hands. Never before, however, has it faced as strong a challenge, in numbers or ability, as it does now.

Tilden and Johnston both were beaten today with victory seemingly in the grasp of each, but neither had quite the ability to come through in the face of the impetuous attacks of their foreign rivals.

On the top wave of a brilliant rally in the final set, Tilden seemed a certain winner when he led at 6-3 in games on his own service. But desperately as he fought, he was unable to check the suddenly brilliant surge that carried Cochet to triumph in the

## Stars Garner Speedy Clash From Visitors

(Continued from First Page)

Peters put the home guards in front again in the last half of the game by getting on the base end of another home-run ball tossed by Martin. Peters' drive was a healthy wallop, the ball traveling on a line into the trees bordering the left-field wall.

From then on nothing of importance transpired until the Indians went on the warpath in the seventh. McCabe was touched up for five solid innings in this frame and was lucky to escape with his scalp. Jack Leroy led off with a hit to left and romped home when Paddy Duffy's double drove the ball into the left-field line.

Schwab also doubled to left and McCabe came home. Jesse's sacrifice bunt doubled the lead. McCabe's center. Martin struck out. Lane singled to right but Baldwin was out trying to take third when O'Doul fouled the ball. Leroy recovering in time to make a perfect throw to Lee.

Peters started Martin on the downswing with the home ball of the seventh by clicking a double down the left-field line. Zerkow, batting for McCabe, walked into his athletes. However, Jesse kicked Keri's hint. Lee walked, forcing Peters in with a run, and Martin made his exit.

Peters took the mound, O'Doul scored Lee at second, Zerkow scoring, and Leroy, trying for a first, Keri also counting and Leroy rambling to third. Sheehan's hit to left scored Keri and put the lead run of the afternoon. Score:

## OBSERVATIONS

BY THE DIOCESE OF ST. LOUIS

THE chances are now three to one that the national tennis champion for 1935 will be a foreigner. In fact, it's practically a cliché as everybody in New York claims that people from overseas are foreigners, and that's exactly where Vinnie, the only one of the four finalists not born in France, while everybody else is, is from New York.

Of course, material isn't everything, but until we've looked over the situation at Southern Branch, where Bill Spaulding is said to have corralled a flock of fairly stable chaps, the palm must go to Occidental. Occidental naturally has some handicaps to overcome, not the least of which is that of thoroughly instilling his system into his athletes. However, having so much material the new Tiger mentor can possibly afford to discard those who fail to "serve" his stuff as readily as they ought.

It is an unusual sight in a Southern Conference institution to see several men, all of good good, out for the same position. Most of the colleges generally have a representative first team and then pick up their substitutes in the best way they can. But Occy is well fixed with strong reserves in every position.

For instance, Merrill Gregory may get the call as quarterback, but if he doesn't, Exendine has "Bats" Broderick and Jack Schwaner to fall back upon, and the falling back isn't as terrible as it sounds. But that's only the half of it, for Paddy Smith, W. Smith and H. Smith are the other three signal-carrying candidates.

So it goes practically all down the line—centers, eight backs and fullbacks to equip four full teams. And most of the men have had experience, which is gratifying, to say the least.

Exendine is a stickler for fundamentals and he's spent the better part of an hour drilling his charges in tackling, blocking and falling on the ball. This procedure tickled old-time fans not a little, for it is said that during the past two years the Tigers have practically given up such tactics. It is evident that Exendine intends to have a hard-nosed tackle team, for he gave his boys orders to "knock each other down" and that's exactly what happened, even though he has the second day of practice.

The new mentor certainly has his work cut out for him in wedding a team together for a week from tomorrow with Loyola. Many of the players he does not know, and he has to get the best out of the first-hand information of their ability. Bill Anderson, popular training man, is the best of the coaches in this respect for he is the only holdover from last year's coaching staff.

Occy and it looks as if Exendine's best backfield will include Gregory as quarterback, Bats Broderick and Jack Schwaner as halves, and Al Kiffin as the fullback berth. Minkins has put on some weight and looks great. Exendine is also in fine condition and he has a good idea of how to handle his 190 pounds of brawn ought to cause a lot of havoc among Occy's rivals. Exendine and Puckett, the fullback, a season ago, are two corking good men also, and Klein will be kept hoping to hold his post. Hunt, Glavin and Ward Schneider must be reckoned with as backs.

Mike Odell and Bud Trechout, the old reliable end duo, seem to be in the 1935 form. Exendine and Miller from the 1935 frosh and the Black twins ought to see considerable service. Greenway and Tanner look like the pick of the center. Capt. Vic Conde has the call of left tackle, naturally. He weighs something over 200 pounds. Others in this line of endeavor are Ellsworth, Walker, Stahman, Tyler and Cuthbert. Terry, Mack and Harting seem destined to scrap it out for the guard berths and they will receive no small amount of stimulus from Popkiss, Hansen, Orr, Betts and G. Williamson.

Exendine is tickled at this display of brawn, but he is anxious to see what brain power his athletes possess. His system must be learned from the ground up. Old stuff taught by Nicholls must be forgotten and the change must be made in a hurry. After the Loyola game a week from Saturday comes the Stanford encounter, and don't let anybody tell you that "Pop" Warner's last don't be ready by that time. Quarterback or no quarterback, the Cards know Warner's stuff, have a veteran line and a score of capable backs, and he became thoroughly familiar with his desires in spring practice. Add to this "Pop's" boys work morning and afternoon until October 1. If Exendine makes a strong showing against the Cardinals he will have accomplished something in the nature of a miracle.

## Exendine Has Fine Material at Occidental

(This is the first of a series of seven stories dealing with football teams of the Southern California Conference. Tomorrow—Southern Branch—Ed. Note.)

Minkins has put on some weight and looks great. Exendine is also in fine condition and he has a good idea of how to handle his 190 pounds of brawn ought to cause a lot of havoc among Occy's rivals. Exendine and Puckett, the fullback, a season ago, are two corking good men also, and Klein will be kept hoping to hold his post. Hunt, Glavin and Ward Schneider must be reckoned with as backs.

Mike Odell and Bud Trechout, the old reliable end duo, seem to be in the 1935 form. Exendine and Miller from the 1935 frosh and the Black twins ought to see considerable service. Greenway and Tanner look like the pick of the center. Capt. Vic Conde has the call of left tackle, naturally. He weighs something over 200 pounds. Others in this line of endeavor are Ellsworth, Walker, Stahman, Tyler and Cuthbert. Terry, Mack and Harting seem destined to scrap it out for the guard berths and they will receive no small amount of stimulus from Popkiss, Hansen, Orr, Betts and G. Williamson.

Exendine is tickled at this display of brawn, but he is anxious to see what brain power his athletes possess. His system must be learned from the ground up. Old stuff taught by Nicholls must be forgotten and the change must be made in a hurry. After the Loyola game a week from Saturday comes the Stanford encounter, and don't let anybody tell you that "Pop" Warner's last don't be ready by that time. Quarterback or no quarterback, the Cards know Warner's stuff, have a veteran line and a score of capable backs, and he became thoroughly familiar with his desires in spring practice. Add to this "Pop's" boys work morning and afternoon until October 1. If Exendine makes a strong showing against the Cardinals he will have accomplished something in the nature of a miracle.

"MISS AMERICA"  
PRESS AGENT "BROKE"  
SAN FRANCISCO, Sept. 16. (AP)—Some of the financial tribulations that beset the publicity agent for the winner of an American prize-beauty contest, were revealed here today when Louis B. Jacobs, publicity agent for Faye Laupheimer, winner of the "Miss America" beauty contest at Atlantic City last year, filed a petition of voluntary bankruptcy.  
Jacobs recently lost a suit to collect half of the money earned by Miss Laupheimer while she was reigning as "America's most beautiful woman."  
In his petition to be declared a bankrupt Jacobs lists liabilities amounting to \$24,834 and assets amounting to \$290, consisting principally of underwear, pictures and books.

German Students Here For Study Say Duetting Out of Style  
NEW YORK, Sept. 16. (Exclusive)—Boater, tennis and handball are taking the place of duelling and beer drinking in German universities, according to six students who arrived today on the North German Lloyd liner Seydlitz. They are here for a year's study in various colleges under the auspices of the American-German Students' Exchange.  
Sports are compulsory in German universities, they stated, and no one can win a degree without courses in physical training.

**PARACHUTE SAVES MAIL PILOT IN FOG**  
Flyer Drops from Plane in Night and Lands Unhurt as Gas Supply Runs Low  
OTTAWA (Ill.) Sept. 16. (AP)—C. L. Lindbergh, pilot of the St. Louis-Chicago air-mail plane, kept from landing at Chicago tonight by a heavy fog, dropped from his plane by parachute safely here tonight. His plane was wrecked.  
Lindbergh made the flight from St. Louis to Chicago, but because of dense fog over the latter city decided to turn back in an effort to find a place to land.  
When he was eleven miles north of Ottawa his gas supply ran low and he began drawing on his reserve tank. Knowing that he had only twenty minutes, he decided to leave the plane by parachute.  
He landed safely in a field and proceeded to Ottawa.  
The drop was made about 8:30 p.m. central standard time, from a height estimated by the pilot at 4000 to 5000 feet. Three sacks of mail were recovered from the wrecked plane and taken to the postoffice at Ottawa.  
Lindbergh planned to remain here tonight and will attempt to salvage portions of the plane tomorrow.

**Film Official Charges Malice Caused Arrest**  
OAKLAND, Sept. 16. (AP)—F. E. Miller, business man of Oakland and treasurer of the Reeltime Film Syndicate, today filed an answer to an action brought against him by the opposition stockholders charging mismanagement of the syndicate and the loss of \$50,000 to the stockholders.  
In his answer Miller set forth that the action was brought with malicious intent through the efforts of Orland E. Miller, president, and Mrs. Lillian G. White, secretary.  
The original action came as an aftermath to Miller's arrest on a warrant sworn to by the stockholders who are plaintiffs in the present suit.

**HIERARCHY SEES MEXICO VICTORY**

Bishops of America Send Note of Sympathy

People Praised for Warfare Against Tyranny

Message Signed by Sixty-four Prelates in Council

WASHINGTON, Sept. 16. (AP)—Although the fight may be long and may "give many martyrs to the church and to mankind," the controversy between the Catholic church and the Mexican government will end in victory for the church, the Catholic hierarchy of the United States has declared in a message of sympathy sent to the Catholics of Mexico.  
The communication, drawn up at a meeting at the Catholic university here, is signed by the four cardinals, the nine archbishops and the fifty-one bishops attending the meeting. It was sent to the archbishops, priests and laity of Mexico.  
"In these days of your severe trials and persecutions," it said, "we, the bishops of the United States of America, assembled in conference, send our greetings of sympathy and affection for you, dear brethren, bishops and laity, are watching with eagerness and entire sympathy your magnificent fight against a tyrannical government. We applaud your wisdom, moderation and firmness and are filled with admiration of the calmness, courage and endurance of the Mexican people.  
"You are showing to the whole world the true spirit of Mexico, ready to endure and suffer all for the sake of Christ. You also are showing yourselves the real champions in Mexico of religious and civil liberty, you are fearlessly resisting armed force in defense of the inalienable rights of man.  
"The fight may be long; it may give many martyrs to the church and to mankind; it will end only with the victory of liberty and justice. The long-suffering and peace-loving Mexican people, too long the victims of ruthless militarism, will emerge from this trial a stronger and purer nation, with a constitution founded on the true principles of justice and liberty and a government that honestly respects the rights of the people.  
"Be comforted therefore, dear brethren. We, the Catholic bishops and priests and people of America, pledge you our prayers and our deepest sympathy in this, your hour of sorrow. With God's blessing we shall be with you to the end and to victory."  
Plans for an ambitious program of welfare and relief work in Russia and the Near East were adopted.

**MEXICANS OF TEXAS IN GREAT FETE**  
Independence Celebration Attended by Thousands; Three Die in Mexico City  
SAN ANTONIO (Tex.) Sept. 16. (AP)—Mexicans of Texas tonight concluded what they said was the greatest Mexican Independence Day celebration ever held in the United States.  
A huge parade, in which the United States Army and local lodges were represented, was the outstanding event of today, the 11th anniversary of the southern republic's revolt against the Spanish yoke. Tonight a series of entertainments and musical programs in San Pedro Park attracted 10,000 to 15,000 persons as the principal day of the fiesta ended.  
Loyalty to the Calles government was enthusiastically pledged this morning at a ceremony at the Mexican consulate by a patriotic committee representing Mexican citizens in San Antonio.  
Asked tonight if the appeal issued by Rt. Rev. A. J. Drossaerts, Roman Catholic bishop of San Antonio, asking Mexican Catholics to forego the fiesta and instead pray for Mexico in her religious crisis, had had any effect, Consul Carrillo said he did not know. He pointed, however, to the size of the crowds participating in and watching the parade and other exercises.

**Frost Adds to Snow Losses in North Alberta**  
WINNIPEG, Sept. 16. (Exclusive)—Northern Alberta, which has had a coating of snow six inches to a foot since Tuesday, was visited by a heavy frost Wednesday night and the outlook for any harvesting this week is dismal.  
Operations which were resumed Monday after a long delay on account of rain, are again paralyzed and much of the uncut grain is badly lodged by snow and will be difficult and expensive to cut. September 14 marks the earliest snowfall in the Edmonton district for some years.  
Calgary, in Central Alberta, and Lethbridge, in Southern Alberta, report much snow.

**Two Men Sail for Greece to Wed Same Girl**  
NEW YORK, Sept. 16. (Exclusive)—The young woman lives in Athens, order Aquinas today, each to ask the same Greek girl to marry him. The young woman lives in Athens, but her name they would not reveal.  
The passengers, who insisted on having separate quarters on opposite sides of the ship, were John Totah and James Kaskow, both Greeks. Once they were friends, but their ardor for the Grecian girl has ended all that. They came to America to win fortunes. Both fared well and, although bitter rivals, agreed to let the young woman decide.

**CENSOR NIPPON RIOT NEWS**

Japanese Police Put Effective Ban on Facts About Disturbances in Nagoa

TOKIO, Sept. 16. (AP)—Effectiveness of the Japanese government press censorship was exemplified when for nearly three weeks a pall of silence surrounded the recent rioting in Nagoa Prefecture. The silence was absolute insofar as domestic publication of news of happenings there was concerned and also almost as effective as censored foreign correspondents for they could not get news to cable.

The rioting at first was of a minor nature. It started when peasants became incensed because the economic policy of prefectural government called for the abolition of a number of police stations. Finally the angered faction grew in numbers until they were a formidable mob of thousands. Then they descended on the Governor's office, dragged him and the chief of police into the streets and beat them. They surrounded seventeen police stations and refused to permit any arrests to be made.

Before it could be quelled, the disturbance had grown so that it took a thousand police officers to handle it and in the two weeks it lasted 638 rioters were placed in prison to answer criminal charges. News spread to Tokyo immediately but the police issued the order to censor the publication and the order was not raised for three weeks. By that time the news was dead.

As no news could be telephoned out of Nagoa, the correspondents of foreign papers, while exempt from the censorship ban, were virtually in the same fix as the native newspapermen, for they had no way of getting the news to dispatch.

Bagdad, with 250,000 population, has only 1600 electric light customers. Mulan, China, will have a broadcasting station.

Population of Iraq now is estimated at 2,750,000.

**LEAGUE AID SOUGHT FOR PROHIBITION**

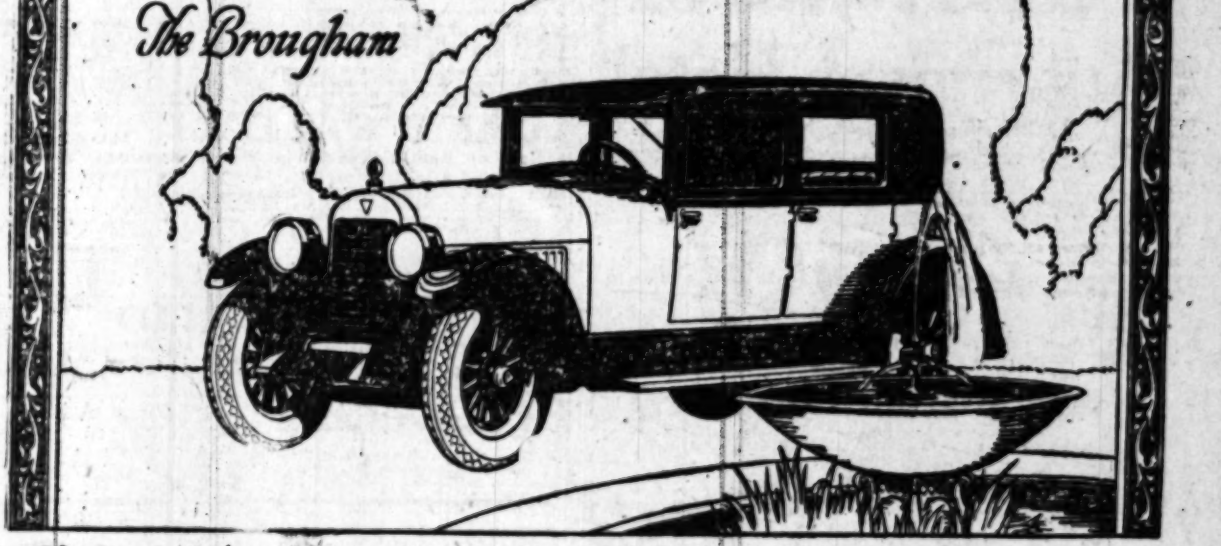

Polish Minister Presents Petitions and Advocates International Action

GENEVA, Sept. 16. (AP)—A demand that the League of Nations enter the battle against alcoholism was made yesterday, August Zaleski, Foreign Minister of Poland, presented the petition from delegations from Poland, Sweden and Finland. He emphasized that the evil of alcoholism is made worse by the absence of coordinated international action against the abuse of drink.  
A document distributed among the members of the League Assembly refers especially to the smuggling of alcoholic liquors into the United States in defiance of its prohibition law. This is a disgrace to civilization, it is declared, nullifying the praiseworthy efforts of people and government to solve the alcoholic problem.  
The pamphlet states that the United States and the Baltic countries have negotiated treaties to end this evil, but it insists that without uniform international action there can be no hope of success. The League of Nations, it is said, can settle this problem so important to humanity.

**HOLDS RAT CATCHING RECORD**  
LONDON, Sept. 16. (AP)—England's rat catching record is held by the Jarvis family, three of whom are girls. Bags of 700 to 1000 rats a week are nothing out of the ordinary for the Jarvies. Misses Nell and Kitty Jarvis, twenty-one and twenty-three respectively, are on the rat catching job every night in the week, often assisted by their sister Rose, who is twelve.

NEW YORK, Sept. 18. (AP)—Mystery continues to cloak the generation in Brazil of the two

Museum expedition.  
Mrs. Marshall Field, wife of  
the backer of the expedition.

but Mrs. Ernest Thompson Seton, her woman friend and wife of the naturalist, it was learned, has remained behind in Brazil. The reason for the separation could not be learned. Mrs. Field refused to discuss

the matter and George Charrie, leader of the expedition, branded reports of disagreements among members of the expedition as gossip and declined to comment.

ID TO SELF-EXILES**

ROME, Sept. 16. (AP)—The plot  
Premier Mussolini with a bon  
hatched, the police say, by Itali

...exiles who support an anti-Fascist paper in Paris.

Uino Lucetti, accused of throwing a bomb, was a messenger for the paper for some time, police say, although he became acquainted with the leaders of the anti-Fascist movement among the Italians in France. Chiodi and Camporeale are three editors, Luigi Camporeale, Dr. Giuseppe D'Amico and Carlos Bazzi, who have been

driven out of Italy and their property confiscated as nonpatriots. The speaker yesterday addressed a letter to the chancelleries of most of the European countries and also to the League of Nations asserting that fascism had only itself to thank for the attempt at assassination.

## Fall Fashion for a Spanish Dining Room

—and a Barker Bros.' Real Outstanding Value— \$275 "Canigo" - 8-piece Group

THIS group, named for a famous mountain, was inspired by the beauty which makes old Spanish furniture touch the imagination. Walnut has been generously used in all the pieces, both straight grained and crotch walnut in a distinctive symmetrical figuring. Where strength is more important, American gumwood is used.

THE SIDBOARD has solid mahogany partitioned silver tray, also large compartments for glassware and a deep linen drawer. Drawers are dust-proof and hand-fitted to insure easy gliding. Table, 42x66 inches, extends to 8 feet, with 2 apron fillers. Fine wrought brass pulls, hinges and lock-faces. Wax finish gives a mellow lustre to the natural beauty of the woods. The tapestry covered chair seats are in rich colors. A handsome group of a favored mode—a supreme value at the modest price, \$275. China Cabinet—\$65. Serving Console—\$35.

## BARKER BROS.

SEVENTH STREET, Flower and Figueroa

## Arrived!

—from Italy

JUST unloaded—a quantity of those impressive large pieces of Italian pottery that are so hard to find. Massive oil jars—from 24 inches to 3 feet high. Some of them typical Italian conventional designs, others pictorial, but in the sunlit colors of Italy.

## A New Flame

A NEW type of decoration has been achieved by Italian artists. On display are a few of the original pieces—lovely! Quaint pastoral scenes attained by a sort of stippling in soft neutral tones.

## Many Shapes

THE tall necked vase, shown, has the very much desired serpentine handles. The shape is perfect and the peaceful scene that decorates it glitters—tall dark trees in Italian blues and greens against the pale yellow sky. The 18-inch plaque displays a pastoral scene in most decorative style.

AND these are only a few of many distinctive pieces—urns, jardinières, vases of all types—and daily the boats arrive with more and more—Christmas stock already accumulating. See them now—the very new, best things.

(FIRST FLOOR)

## Colored Voile-only 65c yd.

AND so lovely, too! The colors—maize, peach, rose, mist green, sunburst. Of a sheer, fine quality that promises freshness and charm to windows. One of the favored fabrics for fall at a really modest price.

## Organdies Are Smart

... for bedrooms and breakfast rooms. They are so crisp and fresh—especially this new make known as the Sun Sheer. And a whole rainbow of colors for your choice—blue, green, cedar, rose, ecru, peach, orchid and white. They launder perfectly and easily—85c yard.

## New French Marisettes

THE new fall designs have arrived. Lovely pieces in the usual cream and ecru and in the new deeper tints. The very latest patterns yard.

## Best Water

Comes From Natural Springs in Mountains

Do you know the sweet, refreshing, wholesome flavor of natural, soft spring water that is really pure?

Learn how it satisfies the palate, how it quenches thirst. Then ask your physician how it protects health.

Be certain that you got Arrowhead Springs Water, for it's "Arrowhead" you're sure it's pure.

This famous water comes up from great depths through solid rock in the Sierra Madre Mountains, at the base of the famous mountain known as Arrowhead.

Careful people are so partial to it that seven million gallons—more than all other kinds combined—are consumed yearly in Los Angeles and vicinity alone.

Phone Westmore 5231 and ask to have a 5-gallon bottle delivered. It's not everything we claim for it, it's FREE, for we will gladly refund your money if you are dissatisfied.

Taken early in the morning from the springs, it is bottled within three hours, so you get it absolutely fresh.

## ECZEMA IN RASH ON LITTLE BOY

Very Itchy, Caused Eruptions, Cuticura Heals.

"My little brother had weeping eczema. It broke out on his forehead in a rash, and was very itchy causing him to scratch. Scratching caused the eruptions to fester and they were very sore and tender. It got so bad that we had to put stockings on his hands at night and he was very cross. The trouble lasted several weeks.

"Cuticura Soap and Ointment were suggested so we purchased some, and after using one cake of Cuticura Soap and nearly a box of Cuticura Ointment he was healed." (Signed) Miss Minnie Saxama, Piper City, Ill., Feb. 2, 1926.

## MAJORITY RULE ADOPTION SEEN

Democrats May Abolish Old Nomination Requirement

Iowans Assert Movement Has Good Indorsements

Davis, McAdoo and Others Said to Favor Change

CHICAGO, Sept. 16. (AP)—Success of the movement within the Democratic party to abolish the two-thirds rule for national nominations was predicted today by the national-committee members of Iowa, who have been leaders in the campaign since its inception early this year.

Clyde L. Herring of Des Moines and Mrs. Madge O'Neill of Columbus Junction, Iowa, the Iowa members, issued a statement showing that forty-eight members of the national committee have pledged themselves for the adoption of majority rule in future conventions and predicting that an overwhelming majority of the convention vote of 1936 would be behind the movement, on the basis of this figure.

INDORSEMENTS  
Since the agitation for the non-adoption of the two-thirds rule began in the Iowa committee last January, the statement said, it had been indorsed by such national leaders as John W. Davis, the 1924 standard-bearer, William G. McAdoo, Norman E. Mack, New York national committeeman; Charles A. Greathouse of Indiana, secretary of the national committee, and Senator Thomas J. Walsh of Montana, chairman of the 1924 convention.

The Iowa committee members began a canvass after the Democratic State Committee had instructed them to work for majority rule. Responses were obtained from the national committee members of virtually every State. "The proportion favoring the adoption of the third-thirds rule in 1928 is overwhelming," the statement said. "Out of fifty-seven who definitely gave their opinions, forty-eight favored the majority rule, and only nine were willing to see this child of hate, the two-thirds rule, a true relic of political barbarism, a true relic of political barbarism, a true relic of political barbarism."

NEW YORK, Sept. 18. —Extreme nervousness characterized the trading in today's stock market, with final quotations disclosing marked irregularity. Fears of an increase in the New York Federal Reserve rediscount rate, which again proved to be unfounded, undoubtedly accounted for some of the early selling, but when the call money rate was lowered from 5 to 4 1-2 per cent in the early afternoon, a number of venturesome pools started bidding up their fa-

verities, but failed to carry the rest of the message. The opinion is widely held in business and banking circles that commercial expansion, as reflected in the volume of rediscounts, has not yet reached the stage where a higher basic rate is needed. The fact that the recent increase in brokers' loans may provide sufficient justification for a higher rate in the near future is the theory that it would act as a brake on speculative activity in securities. The fact that previous increases in the rate have invariably been followed by sharp reactions in securities prices accounts for the widespread speculative action given to the reserve bank's action.

### American Merchandise Export Figures for August Held to Indicate Favorable Balance for Year

By PAUL WILLARD GARRETT

(Copyright, 1924, by New York Evening Post, Inc.)

NEW YORK, Sept. 16. (Exclusive)—New evidence of an autumn upturn in business appears in the rise of our merchandise exports during August to \$388,000,000. That reflects a smart gain over July which in turn was better than June.

It is now the season of year when improvement is expected, but so large a volume of outgoing shipments was not reached in August either last year or the year before. Furthermore the dollar value of these exports does not adequately measure the actual growth, since the total is larger, notwithstanding that commodity prices have fallen. In other words, \$388,000,000 does not do justice in the comparison. On a 1923 price basis the figure would be larger.

To those authorities that had predicted an unfavorable trade balance for 1924 the new monthly compilation must be disturbing. In the first eight months of the year, it is true, our merchandise imports ran ahead of exports. Exports exceeded imports during August by \$50,000,000, however, and it would be curious indeed if the autumn export compliers did not find more to record than the import statistics. The last four months of any year cover the period of heaviest seasonal shipments of our agricultural products. They almost certainly place exports clearly in the lead for the calendar year, and again a theory will have gone wrong.

Back of the theory that imports eventually may exceed exports are a few hard facts, however, that the best authorities know must be faced. We must get away from the old idea that an excess of merchandise exports is necessarily favorable or that a surplus of imports is unfavorable. As a creditor nation, the United States must discard some notions that were held when it was indebted to the world. Half of the entire gold supply of the world is locked up in our vaults. Obviously, then, the enormous debt owed to us by foreign countries cannot be paid entirely by their shipment to us of yellow metal. They must pay in part through shipment of goods and those we must prepare to accept.

This does not mean that the country is about to be flooded with cheap goods of foreign manufacture, for as the spread between imports and exports is diminished other influences will be working. Perhaps a more equitable distribution of the world's gold gradually will be made through increased flotations here during future years of foreign loans. During August \$29,743,113 in gold left this country, representing primarily metal that had been on deposit here by the German Reichsbank, and only \$11,978,690 came in. For the year to date, however, the predominant flow of the metal has been inward and not outward. The view is growing that foreign loans will become a more and more important factor in the settlement of our international balances.

### Fear of Bank Rate Advance Curb to Activity

General Motors Higher at Close; Rails Off

NEW YORK, Sept. 16. —Extra nervousness characterized the trading in today's stock market, with final quotations disclosing marked irregularity. Fears of an increase in the New York Federal Reserve rediscount rate, which again proved to be unfounded, undoubtedly accounted for some of the early selling, but when the call money rate was lowered from 5 to 4-1/2 per cent in the early afternoon, a number of venture capitalists started bidding up their favorites, but failed to carry the rest of the market with them.

While the opinion is widely held in business and banking circles that commercial expansion, as reflected in the volume of rediscounts, has not yet reached the stage where a higher bank rate is necessary, it is felt that the recent increase in brokers' loans may provide sufficient justification for a higher rate in the near future on the theory that it would act as a brake on extravagant speculation in securities. The fact that previous increases in the rate have invariably been followed by sharp reactions in securities prices accounts for the widespread speculative attention given to the reserve bank's action.

# THE UNITED OIL COMPANY

## To Holders of the First Mortgage and Collateral Trust 6½% Convertible Bonds

The deposits of capital stock of The United Oil Company having now exceeded the minimum amount required, the fiscal agents have declared the Readjustment Plan operative, and on September 16, 1926, or as soon as practicable thereafter, shares of The Richfield Oil Company of California will be issued in exchange for Certificates of Deposit of The United Oil Company, and application will be made at once to list the said shares on both the Los Angeles Stock Exchange and the San Francisco Stock and Bond Exchange.

The right to convert the First Mortgage and Collateral Trust 6½% Convertible Bonds of The United Oil Company into Common Stock of the said company at \$75 per share became effective September 2, 1926, and entitles the bondholders to receive thirteen and one-third (13 1/3) shares of capital stock in exchange for each \$1,000 bond so converted. As the current market value of this stock is considerably above the conversion price, the conversion rights carried by these bonds have attained substantial value.

In order to afford the holders of these convertible bonds the same privilege of exchange offered to stockholders of The United Oil Company, the fiscal agents under the Plan of Readjustment, on behalf and at the request of the Richfield Oil Company of California, have agreed to offer three (3) shares of common stock of the Richfield Oil Company of California in exchange for each share of capital stock of The United Oil Company arising out of the conversion of the aforesaid bonds, up to and including November 15, 1926.

We have been advised by The United Oil Company of its intention to call these First Mortgage and Collateral Trust 6½% Convertible Bonds for payment on the next interest date, namely, March 1, 1927.

Conversion of these bonds and the exchange of their equivalent into stock of the Richfield Oil Company of California may be accomplished through either the Anglo-California Trust Company, San Francisco, or the Hellman Commercial Trust and Savings Bank, Los Angeles, or through the undersigned fiscal agents.

## To Holders of Serial 6% Gold Notes (With Stock Warrants Attached)

The deposits of capital stock of The United Oil Company having now exceeded the minimum amount required, the fiscal agents have declared the Readjustment Plan operative, and on September 16, 1926, or as soon as practicable thereafter, shares of The Richfield Oil Company of California will be issued in exchange for Certificate of Deposit of The United Oil Company, and application will be made at once to list the said shares on both the Los Angeles Stock Exchange and the San Francisco Stock and Bond Exchange.

The warrants attached to the Serial Gold Notes entitle the holder of each \$1,000 par value of Notes to subscribe for six (6) shares of capital stock of The United Oil Company at \$75 per share. As the current market value of this stock is considerably above the warrant price, the subscription rights carried by these Notes have attained substantial value.

In order to afford the holders of these Notes the same privilege of exchange offered to stockholders of The United Oil Company, the fiscal agents under the Plan of Readjustment on behalf and at the request of the Richfield Oil Company of California, have agreed to offer three (3) shares of common stock of the Richfield Oil Company of California in exchange for each share of capital stock of The United Oil Company arising out of the exercise of Stock Purchase Warrants, up to and including November 15, 1926.

The exercising of Stock Purchase Warrant rights and the exchange of the resulting stock into stock of the Richfield Oil Company of California may be accomplished through either the Anglo-California Trust Company, San Francisco, or the Hellman Commercial Trust and Savings Bank, Los Angeles, or through the undersigned fiscal agents.

IRON INDUSTRY  
KEEPS UP CLIP

Weekly Review Optimistic on  
Trade Outlook

Says September Promises to  
Exceed August

Inquiries for Rails Reported  
as Improving

CLEVELAND, Sept. 16. (Exclusive)  
September is on the way to proving  
conclusively that the surprisingly ac-  
tive steel market of July and Au-  
gust has not been at the expense of  
the upturn normally looked for at  
this season, the Iron Trade Review  
will say today.

Considering all districts, specifica-  
tions, shipments and new orders thus  
far in September have been heavier  
than those of the first half of Au-  
gust, which in turn topped July. At  
this time every indication is that this  
year will carry through the remainder  
of the month.

Save for the lagging structural-  
shape and freight-car markets, all de-  
partments of the iron and steel in-  
dustry appear invigorated. Automob-  
ile makers at Detroit are operating at  
or near capacity, and their pur-  
chases of steel forecast a continuance  
of the rate through October.

Inquiry for standard rails approxi-  
mating 1,000,000 tons has made its  
appearance, bearing out the belief  
that the railroad industry is early to  
truck material requirements early to  
insure desired delivery. Two larger  
western carriers are understood to be  
in the market for nearly 200,000  
tons each. Chicago rail mills ex-  
pect to close 600,000 tons shortly.

Steel works operations are continu-  
ing unchanged at slightly over 85  
per cent. The September output of  
steel ingots thus far in 1926 is  
thirty days ahead of the correspond-  
ing period in 1925, the record year.

While production of pig iron is about  
twenty days ahead, only a severe  
slump—a recession to an average of  
less than 60 per cent for the remain-  
der of the year—can send a new  
high iron record.

Fourth-quarter buying of finished  
steel has acquired momentum in the  
past week. Tonnage users continue to  
sound out the market, but on finding  
producers generally firm on the ad-  
vanced prices now being quoted, the  
majority have withheld committing  
themselves. Among small and mod-  
erate-sized users there has been an  
increasing tendency to cover. At Chi-  
cago, fourth-quarter inquiry the past  
week has been double that of the  
preceding week, producers feel more  
sure of their price-position than was  
the case a week ago.

Makers of full-finished or automob-  
ile sheets have announced a second  
advance of \$2 a ton in three weeks.  
The leading independent maker at  
Chicago has advanced all sheet prices  
\$2 a ton.

The Iron Trade Review composite  
of fourteen leading iron and steel  
products stands at \$37.75, showing  
little difference from the composite  
of \$37.75 a week ago.

pany are D. Ryer, Berkeley; John  
Lauder, San Rafael; and G. Legh-  
Jones, Hillsboro.

WOOL HOLDS STRONG  
BOSTON, Sept. 16. (AP)—The tendency to  
buy of domestic wools is very marked.  
Domestic wools are being bought in  
large quantities for the coming of the  
London sale. This has given encourage-  
ment for dealers to advance asking prices for  
domestic wools. The London sale, which  
will be held in the latter part of the  
month, is expected to be a very success-  
ful one, and the price of domestic wools  
is expected to be higher than it has been  
for some time.

NEW YORK, Sept. 16. (AP)—August sales of  
National Oil and Bulk dropped to \$1,200,000  
from \$2,000,000 in August last year and for the  
eight months of 1926 to \$12,500,000 from \$20,000,000

NEW YORK, Sept. 16. (Exclusive)  
Indications are that the time is not  
far distant when the business of sup-  
plying electric power and light to  
the industries and homes in the  
United States will be conducted by  
about a dozen large companies. Con-  
solidations have been going on at a  
rapid pace in the last two years and  
there are no signs yet that they have  
been completed.

There is no greater economic waste  
than the hit-and-miss method for-  
merly employed in the erection of  
small power plants and transmission  
systems. This is clearly indicated by  
improved returns of larger public-  
utility companies reported in recent  
months.

North American, one of the largest  
public-utility companies under the  
new groupings, has demonstrated the  
value of large-scale operations in this  
particular industry. In the twelve  
months ended June 30, 1926, it han-  
dled through its subsidiaries a gross  
business of \$107,320,302. Its operating  
expenses, including maintenance and  
taxes were \$65,732,828. In the

ifornia as of June 30, last, amounted  
to \$2,844,429,917.03, as compared with  
\$2,794,979,196.01 on April 12, last, an  
increase of \$49,450,721.02, according  
to the official statement just issued  
by the State Superintendent of Banks.

The report shows that the number  
of State banks on June 30, last, was  
the same as at the preceding call, but  
during the three-month period four  
branches were added. The 337 banks  
comprise thirty-four commercial  
banks, sixty-two savings banks,  
ten trust companies and 231 depart-  
mental banks.

Deposits of these banks on June 30,  
last, aggregated \$2,823,853,432.52, as  
against \$2,721,592,156.33 on April 12,  
last, an increase of \$102,261,276.19.

again the feature of the market here  
today.

Olds were fairly active, but British  
Controlled were again under pressure.  
Ordinary shares which were 2 1/2% last  
year have fallen to 1 1/2%. The company  
was originally incorporated in Canada  
in 1918 and involved a capital outlay  
of \$2,000,000.

The report just issued discloses  
losses of fully \$30,000,000, and a  
gloomy outlook. Most members of  
the board of which Lord Buck-  
master is president, are resigning,  
but it should be understood that the  
present board took over only last  
year and is not responsible for the  
present position of the company.

Those best informed do not regard  
the Canadian election as a  
change in the Dominion's senti-  
ments toward empire ideals.

## FILM SHOW GAINS POPULARITY

Estimate is Made That American Public Will Pay More  
Than \$750,000,000 for Admission to 20,000  
Motion-Picture Houses in Country

More than \$750,000,000 will be paid  
by the American public for admission  
to the 20,000 motion-picture theaters  
in the United States during 1926,  
according to estimates by New York  
financial circles closely identified  
with the motion-picture industry.

This estimate, which gives some idea  
of the popularity of motion pictures,  
is based upon the indications that  
more than 2,750,000,000 persons will  
attend the motion pictures in 1926.

This means that half of the popula-  
tion of continental United States at-  
tends the motion-picture shows at  
least once a week.

Students of the motion-picture in-  
dustry declare that the number of  
regular motion-picture patrons is in-  
creasing rapidly from year to year.  
An example of this fact is that one  
large string of theaters, formerly  
largely devoted to vaudeville enter-  
tainment, is now stressing its mo-

Men in the New York financial dis-  
trict, close to the industry, declare  
that while the larger theater "marks a  
depression" in the industry, they do not  
consider the small theater phase.

## BUSINESS PHILOSOPHY

BY WILLIAM FEATHER

IT is difficult for anyone other than a business man to distinguish  
closely between gross and net profits.

The result is an unfair criticism of business policies.

You often hear it said that it is wrong for an employer to "lay  
off" his workmen because of a shortage of orders.

This remark is due to a failure to realize the narrow margin  
on which practically all business enterprises are operated.

Gross receipts may amount to hundreds of millions annually,  
but net profits for an entire year may not equal the pay roll for  
a single fortnight.

No employer likes to lay men off. Lay-offs are expensive, and the  
enlightened employer will sacrifice his surplus in order to hold his  
organization together.

But there is a limit beyond which he cannot go, without facing  
bankruptcy.

Employees' salaries are not paid out of capital, but out of the  
money received from customers for goods ordered. When the orders  
are cut off, the pay roll must be cut down or the business will sink  
like a stone in water.

Price Trend Irregular in  
Clash of Conflicting  
Market Forces

(Copyright, 1926, by New York Evening Post, Inc.)  
NEW YORK, Sept. 16. (Exclusive)  
Professional forces continued to  
struggle for supremacy on the stock  
exchange today and the outcome was  
another highly irregular trading ses-  
sion. While the popular indus-  
trialists were strongly supported on all  
sides, and the rails maintained an  
independently firm tone, new points  
of weakness cropped out among the  
specialties. "More restricted selling  
pressure fairly well most of the day.

Those working for the decline  
sought to make the most of the net-  
work existing over the outcome of  
the weekly meeting of Federal Re-  
serve Bank directors this afternoon.  
That argument was robbed of much  
of its effectiveness when just around  
midday the rate for C-1 bonds was  
dropped to 4 1/2 per cent for the  
first time in more than a week. The  
turnover fell somewhat below that of  
the previous session, and selling pres-  
sure related noticeably toward the  
close of the day, though movements  
continued irregular.

Bears Attack Motors  
The day was the victim of the drive  
against the motors which came in the af-  
ternoon. Professional speculators work-  
ing for the decline, chagrined by the  
lowering of the call-money rate, con-  
centrated activities on the motors in  
an effort to unsettle the market. The  
General Motors and Hudson were singled  
out to bear the brunt of the move-  
ment, the former being forced back  
precipitately after having reached  
new high levels for the movement.  
Hudson broke badly under weight  
of tremendous offerings, but the  
group as a whole was strongly sup-  
ported around the low levels reached  
early in the final hour and rebuying  
by shorts brought some recovery be-  
fore the closing.

## GUIDING INSURANCE BUYERS

BY GRIFIN M. LOVEACE  
Professor of Insurance, New York University

This is one of a series of articles dealing with all phases of insurance. The  
subject of the next article will be "The Deferred Annuity."

YOU will recall that the single-premium life annuity does not provide  
for refunding any portion of the premiums deposited in event of the death  
of the annuitant; it is payable regularly, however long the annuitant may  
live, but ceases at his death, even though he may die very soon after pur-  
chasing the annuity.

The newspapers recently reported a notable request for an exception  
to this rule. Friends of a world-renowned musical composer, who in old  
age was practically penniless, collected funds with which they purchased for  
him a life annuity.

Before the first annuity payment was due, he died, and there was no  
money to pay his little debts, the cost of his last illness and funeral ex-  
penses. According to the newspaper story, an appeal was addressed to the  
insurance company, stating that, while under the terms of the contract the  
company was not obligated to make any payment, the situation was  
such an unusual one that it seemed reasonable to submit a request for  
payment of a certain sum sufficient to acquire the dead composer's  
work.

CHARGES REFUSED  
To the layman, it may sometimes seem unfair not to refund to the  
estate of a deceased annuitant the principal (or a portion of it) paid  
as an annuity premium, when death has occurred before the annuitant has  
received at least a considerable total in income payments. The error in con-  
cluding that such a practice is unfair is due to the lack of understanding  
regarding the nature of the annuity.

As has already been stated, the annuity is a payment guaranteed an-  
nually to the survivors in a group. If the mortality table which was used  
to determine the number of persons living from year to year showed that  
in a group of 100,000 about 1000 died each year during the first ten years,  
then, in calculating the amount of premiums to be collected for the pur-  
pose of making an annual life-income payment of \$100 to each survivor,  
we should provide for the following payments at the end of the first to the  
tenth years:

Year	No. Living	Total Payments	No. Living	Total Payments
1	99,000	\$9,900,000	98,000	\$9,800,000
2	98,000	\$9,800,000	97,000	\$9,700,000
3	97,000	\$9,700,000	96,000	\$9,600,000
4	96,000	\$9,600,000	95,000	\$9,500,000
5	95,000	\$9,500,000	94,000	\$9,400,000
6	94,000	\$9,400,000	93,000	\$9,300,000
7	93,000	\$9,300,000	92,000	\$9,200,000
8	92,000	\$9,200,000	91,000	\$9,100,000
9	91,000	\$9,100,000	90,000	\$9,000,000
10	90,000	\$9,000,000	89,000	\$8,900,000

The foregoing illustration is not based on any given age or mortality  
table, but is an arbitrary assumption for illustration.

BASED ON SURVIVORS  
One hundred thousand persons enter the group at the beginning of  
the first year and contribute a total which with interest at 4 per cent will  
pay \$100 each to 99,000 at the end of the first year, to 98,000 at the end  
of the second year, 97,000 at the end of the third year, and so on, until the  
last member of the group has died.

The amount of premiums to be collected is based upon these payments  
to survivors only; obviously, therefore, if an annuitant dies before the end  
of the first year, or at any other time, no provision has been made for a  
payment to his estate.

However, a plan known as the refund annuity has been devised to  
meet partially the objection which an annuitant might have to the "appur-  
tenuation" of his estate. Under this plan, if he dies before the total  
amount of annuity payments equals the amount of premiums deposited,  
the company will pay to his estate the difference between the two sums,  
either by continuing the annuity payments (refund annuity) or by a cash  
payment. If he survives long enough to receive the full amount of the  
refund annuity is greater than that charged for the straight annuity and  
the premium for the cash refund annuity is still larger.

Following are the rates of a certain company for the straight life an-  
nuity and for the refund annuity.

Age	Refund Annuity	Cash Refund Annuity
20	\$3.22	\$3.22
30	\$3.22	\$3.22
40	\$3.22	\$3.22
50	\$3.22	\$3.22
60	\$3.22	\$3.22
70	\$3.22	\$3.22
80	\$3.22	\$3.22
90	\$3.22	\$3.22

From the above tables it is clear that at the younger ages it is dis-  
tinctly advantageous to purchase a Refund, or Cash Refund Annuity. At  
the advanced ages, the question would be decided by the needs in each case.  
If the amount available as a single premium were very small, the life annuity  
might be preferable; if there were ample funds and heirs to be considered,  
one of the other plans would probably be selected.

on which practically all business enterprises are operated.

Gross receipts may amount to hundreds of millions annually,  
but net profits for an entire year may not equal the pay roll for  
a single fortnight.

No employer likes to lay men off. Lay-offs are expensive, and the  
enlightened employer will sacrifice his surplus in order to hold his  
organization together.

But there is a limit beyond which he cannot go, without facing  
bankruptcy.

Employees' salaries are not paid out of capital, but out of the  
money received from customers for goods ordered. When the orders  
are cut off, the pay roll must be cut down or the business will sink  
like a stone in water.

Price Trend Irregular in  
Clash of Conflicting  
Market Forces

(Copyright, 1926, by New York Evening Post, Inc.)  
NEW YORK, Sept. 16. (Exclusive)  
Professional forces continued to  
struggle for supremacy on the stock  
exchange today and the outcome was  
another highly irregular trading ses-  
sion. While the popular indus-  
trialists were strongly supported on all  
sides, and the rails maintained an  
independently firm tone, new points  
of weakness cropped out among the  
specialties. "More restricted selling  
pressure fairly well most of the day.

Those working for the decline  
sought to make the most of the net-  
work existing over the outcome of  
the weekly meeting of Federal Re-  
serve Bank directors this afternoon.  
That argument was robbed of much  
of its effectiveness when just around  
midday the rate for C-1 bonds was  
dropped to 4 1/2 per cent for the  
first time in more than a week. The  
turnover fell somewhat below that of  
the previous session, and selling pres-  
sure related noticeably toward the  
close of the day, though movements  
continued irregular.

**STYLES** in male and female ap-  
parel have been gradually ap-  
proaching each other for a num-  
ber of years. The gentle sex has  
appropriated several garments pre-  
viously considered the exclusive property  
of the male—noticeably the popular  
trunkers.

But until the introduction of the  
Basque cap, imported from sunny  
Spain, an article of apparel had never  
been placed on the market as the  
joint property of the opposite  
sexes.

The Basque cap has been worn for  
centuries in certain parts of Spain,  
although it has been little seen out-  
side of its native environment. It is  
made of one piece and is offered in  
a variety of colors. The American  
college youth is responsible for its in-  
troduction into the United States.

Photo shows Fred Elizalde, or-  
chestra leader at the Candelaria  
Hotel, adjusting one of the new caps  
to the comely head of Marie Jearis,  
a roof instructor. Young Elizalde  
brought the cap with him from his  
boyhood home at San Sebastian, Spain.

Robert Frederick Foster in his

in which the adversaries of the de-

the possibilities of their hands, so  
as to get upon an equality with the

The difference between two part-

**Series of Altercations**

Philip J. Mitchell, known in the  
realm of statistics as Phil Salvatore,  
lightweight boxer, found more ac-  
tion in two years of married life  
than he did in a career of fourteen  
years in the squared circle, accord-  
ing to a suit for divorce he filed  
yesterday against Wilma Mitchell.

The boxer also held his wife re-  
sponsible for his failure to make a  
better showing June 4, last, in his  
bout with Ace Hudkins.

Mitchell asserted his wife nagged  
him and annoyed him and demanded  
more money than the amount he  
thought necessary. He also declared  
she told him it was none of his  
business when he inquired as to her  
whereabouts on nights she was said  
to have remained out past the usual  
hours.

According to Mitchell he and his  
wife were married April 14, 1914, and  
separated June 4, last, the day of his  
bout with Hudkins. Mitchell as-  
serted he had engaged in 300 bouts  
during his ring career of fourteen  
years, but that he had engaged in  
more altercations with his wife dur-  
ing this married life. Disputes with  
his wife, he said, were brought about  
by her asserted temper and desire  
to shine socially.

The complaint was filed by Attor-  
ney Griffith Jones.

affair.

Two huge tents will be erected on  
the grounds, according to Mr. Ogil-  
vie, and all business men in that district  
will have mercantile displays of some  
sort, while automobile dealers of  
Washington Boulevard will stage an  
automobile show in connection with  
the exposition. Other means of  
amusement and entertainment will  
be provided.

One of the features of the carnival  
will be the nightly performance to be  
given by the entire cast at the West  
Coast Boulevard Theater, according to  
Mr. Ogilvie.

A parade of more than one mile in  
length will be given on the opening  
night, Mr. Ogilvie said, with every rep-  
resentative merchant in line.

# How smart are your children?

**HOW CAN YOU TELL** an extraordinarily gifted child when you see one? What are the signs and symptoms that reveal to you whether your children are bright, dull, or just average?

May not your child become a genius? What wouldn't you give to know now—to understand just how to shape its education to its greatest advantage?

Professor Lewis M. Terman, head of the Department of Psychology of Stanford University, has spent his life studying stupidity and genius. He knows possibly more than any other living man about the traits and characteristics of gifted children. He recently turned a thousand precocious children inside out. And the thrilling story of what he found inside is told by Albert Edward Wiggam in the October issue of The American Magazine.

Professor Terman has made a great contribution to the knowledge of his generation. He has brought the elusive workings of the child mind into the laboratory of scientific analysis. The story of his achievements is one of those articles which make The American Magazine a living force. For there is no limit to the interest men and women feel in the exploration and discoveries of life.

And this magazine is life!

## CAUSES OF CRIME RATIO TOLD CLUB

Dep. Dist. Atty. Fricke Says Too Many Still Believe Criminal Life Pays

An unjustified belief in the minds of potential criminals that crime pays is responsible for our too-great ratio of crime, Dep. Dist. Atty. Fricke declared in an address to the Times Masonic Club at Paulais Cafe last night.

Speaking on "America's Personal Crime Problem," he said the ratio of crimes to population has not materially changed for many years. The number of crimes fixed by statute has been increased, by means of the passage of the weapons act, the criminal syndicalism law, the prohibition law, the Corporate Securities Act, and others. Misdeamors recently have been made felonies, such as narcotic possession and sale, joyriding and escape by a misdemeanor prisoner.

Crime, despite the fact it is easy to commit and the indifference caused by insurance against loss by crime, does not pay, Mr. Fricke declared, saying criminal life as a rule ends in prison or a violent death within three or four years.

Speaking of legal reform, Mr. Fricke

## DOBBIN REVENGED ON MOTORIST

Aids Resourceful Traffic Officer in Capture of Speeder After Thrilling Chase at High Speed Over Dangerous Pass Road

Meet as a leading candidate for most resourceful member of the Los Angeles police department, Motorcycle Officer Lofthouse.

He placed in the City Jail yesterday, charged with transportation of liquor in violation of the Volstead Act, Charles Mitchell, 24 years of age, after a chase which for variety was up to the best in motion pictures yet produced in that line. Lofthouse and Motorcycle Officer George were on duty in the vicinity of Santa Susanna Pass, they reported, when Mitchell flashed past them at about forty-five miles per hour. As this is some thirty miles in excess of the speed permitted by law on the twist and grades of that particular road, the officers started up after him and Mitchell, they said, stopped on it.

Despite the perilous turns, they declared, Mitchell made at times sixty to sixty-five miles an hour. They expected him to ditch his car in a canyon but he kept it

said no code of laws based upon that of a foreign country will serve here.

Charles M. Dunn presided at the meeting. An entertainment program was given by Constance Colla, the

on the road till he got clear to the other side of the pass, and then ditched it in an orange grove, in which he took refuge on foot.

The cops left their motorcycles and likewise entered the grove, Mitchell proved a good dodger, and when the officers worked their way through the grove, they saw him some distance off making for a small settlement.

Just then a Mexican lad passed on horseback.

"Let me have that plug a few minutes," said Lofthouse. "Dems au caballo."

"Si," said the youngster, surrendering the reins to the uniform, and Lofthouse mounted, advanced the spark, gave his steed gas and soon began to close in on the fugitive. Drawing his revolver, the officer made Mitchell surrender.

In Mitchell's car, according to the officers, was a specially constructed compartment, containing twenty-two dozen bottles of liquor.

## LAEMMLE'S GOOD WILL

Believes in Internationalism in Films; Constance Talmadge With U. A.; Von Stroheim Resumes

BY GRACE KINGSLLEY

Paul Koehner, Universal official, arrived yesterday from Europe, where he has been since last June. He brought a message from President Carl Laemmle to the effect that Mr. Laemmle believes strongly in promoting internationalism in motion-picture production, and means to do his bit to that end.

"He believes," declared Mr. Koehner, "that to promote good feeling abroad in regard to American pictures it will be an excellent thing to bring foreign stars over here, surround them with American players, give them excellent direction and then send the pictures back to Europe, so that foreigners may see their own favorite stars in good American-made pictures."

Mr. Laemmle is completely recovered from his recent illness, and will be back about the end of October, said Mr. Koehner.

Mr. Koehner brought the further information that Ivan Mosjoukine, noted Russian star, recently signed on a five-year contract by Mr. Laemmle, will reach Hollywood from Europe early in November. He is the star of the big spectacular feature, "Michael Strogoff," made in Russia by the Ans-Romans of Paris, and also plays the lead in "Casanova," another foreign picture. "Michael Strogoff" has been purchased by Universal and will be shown in this country late

this fall. A feature will be the appearance of 8000 real Tartar warriors in the film.

Ivan Mosjoukine's first American-made picture will be called "Moscow." It will be an original story by the Hungarian author, Imre Pataky, who writes the tale especially for Mosjoukine.

Magazine Cover Girl Busy

Iris Stewart, the girl whose fascinating smile has radiated from thousands of magazine covers throughout the world, was yesterday assigned her first part in motion pictures.

From the office of B. P. Schulberg, associate Paramount producer, comes the announcement that Miss Stewart will be given the role of Theresa, which is the second lead in Bebe Daniels' starring vehicle, "Stranded in Paris," as her first picture.

Formerly a model for magazine covers and advertisements, Miss Stewart

was placed under contract by Paramount late in July. The selection of Miss Stewart for the role came as a result of an accident. Several days ago Director Arthur Rosson entered a projection room at the studio with the purpose of viewing a screen test of another aspirant. By mistake the operator got the reels of film mixed and flashed on a test of Miss Stewart. When the showing was over Rosson inquired the name of the girl and immediately decided upon her as the logical player for the part.

Constance Talmadge has decided to stick along and give the merry old films another chance, instead of retiring from professional life as she announced she was going to do when she married Capt. Mackintosh.

Maybe the ball held out to her was too alluring; I don't know. At any rate, United Artists announced yesterday that when Miss Talmadge finishes her current First National contract she will sign with United Artists.

Mr. Schenck, chairman of the board of directors of United Artists and producer of Constance's pictures during the past season, revealed that the star will make two features a year for United Artists. She will start work on the first of her two remaining pictures for First National as soon as she returns to Hollywood within the next month.

Sidney Franklin, who has directed both Constance and Norma with high success, will direct Constance in her next picture, called "Carolina."

William Russell, Helen Ferguson and Robert Vignola were among those film folk who left yesterday for the East to view the Dempsey-Tunney fight in Philadelphia.

Billie Dove's first role under her new contract with First National will be the lead in "Here You Are," written and supervised by June Mathis and directed by Balaban.

Rockliffe Fellows in It

Rockliffe Fellows has been signed for the leading heavy role in "The Third Degree," which will be Michael Curtiz's first American production. Warner Brothers are producing the picture and the only other player announced is Dolores Costello.

John Gilbert Hopes

John Gilbert expects to take a trip to New York during the Christmas holidays. Just at present he is working in Clarence Brown's M-G-M production of "The Fish and the Devil." After he finishes this one he will play the star role in a picture tentatively called by the piquant title "Cock of the Walk," which will be directed by Tod Browning.

Von Stroheim Recovers

Erich Von Stroheim, who has been ill during the past fortnight, suffering from tonsillitis, and doing lines "The Wedding March" has been held up, has recovered, according to word received yesterday.

The director will resume work on the Paramount picture this morning if all goes well.

F. A. Powers, owner of the Associated studios and producer of the picture, stated last night that "The Wedding March" will probably be completed within six weeks.

Von Stroheim himself and Hans Pitts are scheduled for appearance in the scenes made this morning.

Al Rockett Here

Al Rockett, First National executive, has arrived as the head of the procession of First National forces which are to make their pictures in the West.

First National studios are fast becoming a hive of industry and Mr. Rockett expects to get to work at once on the first of his productions.

Discovery Note

Just because Winfield Sheehan plays a sedate game of golf is no sign that he hasn't an eye out for beauty. Therefore when James Ryan, casting director, announced that he was sure he had a find, and asked the Fox executive to have a look at her, and at her screen test, Mr. Sheehan has nothing to say.

The result is that Nancy Nash, three weeks ago an unknown in Hollywood, has signed a long-term contract and will play for a nice part in Clyde Fitch's "The City," which Fox is transferring to the screen.

Miss Nash is a native of Texas, and she has been in Hollywood during the summer visiting a chum. Recently Nancy nursed an ambition to go into pictures. Director R. William Neill was searching for a girl to play Cicely Rand in "The City." He had given fifty applicants screen tests without result. Nancy's chum suggested that she try for the part. But Nancy was due to return home in three days to enter Texas University. She took the chance of incurring the displeasure of her father, obtained an interview with James Ryan, casting director at Fox Films west coast studios, and got the part.

The wires between Mercedes, Tex., and Hollywood were kept hot for two days before Miss Nash convinced her family that she should sacrifice a college career for motion pictures. Art prevailed and Fox Films expects to add another Olive Borden or Janet Gaynor to their list of screen players.

May Allison has the feminine lead in the picture, with Walter McGrath, Robert Frazer, Richard Walling, Rodd Roling and Lillian Elliott in other big roles.

Paul Bern Writes It

Paul Bern is to write the story for Corinne Griffith's next picture, "Purple and Fine Lined," according to the announcement made yesterday by E. M. Asher.

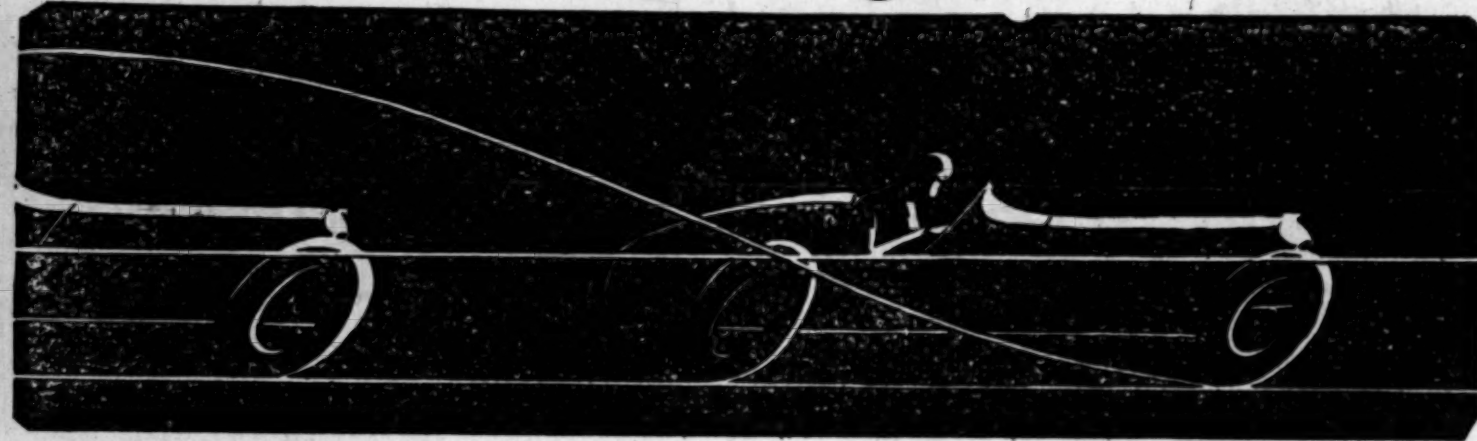

Bill Russell to See Fight

William Russell and Helen Ferguson are leaving today for New York and Philadelphia with the avowed intention of seeing the Dempsey-Tunney fight.

Claire Windsor's Little Journey

Having completed "A Little Journey," Claire Windsor will now take a little journey of her own. The M-G-M star leaves today for Seattle, where she will join her husband, Eric Lytle, who is out touring in the interests of vaudeville, you will remember. Seattle being Miss Windsor's native town, one may safely prophesy a delightful visit for her.

# One Quality Always!

## Richfield has no Second Quality

ONE QUALITY...  
one policy...  
one price to all! Richfield has no second quality gasoline...no cut rate price to either dealer or motorist!

Every gallon of this famous California fuel is as fine as gasoline can be made. Every drop delivers to the utmost its combined qualities of speed, power and mileage plus easier starting.

Richfield's phenomenal rise to third place in gasoline sales, more than 400% sales increase in less than three years; its unbroken string of speedway victories and world's records; its strict

adherence to quality that has made it the exclusive choice of the world's greatest drivers, are all convincing proof of its actual superiority over other gasolines!

When you buy genuine Richfield, you know that you are getting the finest gasoline that money can buy...gasoline made by a company that has never put out a second quality fuel or offered price inducement as a substitute for good gasoline.

Ask for genuine Richfield at your dealer. Be sure that your tank is always filled from the pump with the Richfield shield.

When a better Gasoline is made

you will get it from the Richfield pump
